

CASEMENT WINDOW

Detail at - as Detail at - ih

casement windows (Hinged Type) are simple in design. They are mostly used in residential applications. the windows gave hinged panels which open either on the inside or outside. Some windows have additional panes for fixing mosquito mesh, grills etc. These windows can also be made out of hollow shapes which have grooves for weather strips. Extruded glazing clips are used for fixing glass. This will eliminate display of screws.
